**MEMORANDUM FOR V Corps MSC Commanders**

**SUBJECT: Accident Prevention and Risk Management**

1. Reference: E-mail, GOMO, 11 Feb 00, subject: CSA 00-004 (Message), dtd 11FEB00 (Risk Management Campaign) (Enclosure).
2. The rising number of accidents has prompted the Chief of Staff, Army (CSA) to send the enclosed message directing commanders at all levels to become more focused on accident prevention. The message specifically lists several measures that must be implemented.
3. As directed by the CSA, I want you to review the enclosed message and ensure that all measures are integrated into your operations and training. To further meet the intent of the CSA, the following requirements will be implemented:
  - a. Each soldier will be trained on risk management using the U.S. Army Safety Center (USASC) Chain Teaching Packet not later than 29 June 2000. Commanders will conduct the required risk management training and submit completed training status reports to the V Corps Safety Office not later than 29 June 2000. Provide training status updates on 15 May and 15 June to the V Corps Safety Office. Reports will include number of soldiers assigned and number of soldiers trained to include leaders.
  - b. Leaders will identify "at risk" soldiers and take action to modify their risky behavior. All soldiers will be evaluated using the Next Accident Assessment prior to the Memorial Day weekend. High risk soldiers will be counseled and proactive measures taken to modify their behavior.
  - c. Educate soldiers on the risks of speed, fatigue and alcohol. Enforce the standards in UR 190-1 for traffic violations and conduct mandatory vehicle safety inspections.
  - d. The first general officer in the soldier's chain of command will be briefed on all fatal accidents. In addition, the first colonel in the chain of command will conduct a comprehensive assessment of every fatal or serious injury POV accident. Lessons learned will be provided to the V Corps Safety Office.
